Muhammad Hayim
President

Engineering merupakan salah satu hal yang sangat penting dalam proses industry manufaktur, ekstensi engineering sangat berkaitan langsung dengan kekuatan dan perkembangan proses manufaktur pada sebuah perusahaan. Oleh karena itu engineering adalah bagian dari kekuatan bisnis untuk mendukung proses manufaktur yang efektif dan efisien. Sebagai salah satu perusahaan engineering, PT. Surya Gemilang Engineering adalah perusahaan yang memiliki misi untuk memberikan nilai tambah pada industry manufaktur dengan memberikan dukungan dan layanan engineering.

Kami telah beroperasi sejak tahun 2001, memberikan solusi dan layanan optimal pada pelanggan berupa layanan engineering dan konsultasi produk - produk unik yang mendukung produktivitas pada proses manufaktur.

Untuk itu, kami secara terus menerus berupaya meningkatkan kemampuan baik dari segi teknologi, sumber daya manusia dan sistem manajemen agar selalu bisa menjadi bagian penting pada industry manufaktur yang terus tumbuh dan berkembang dengan pesat.

Kami akan terus mendukung industry manufaktur dengan berkontribusi aktif menjadi mitra strategis untuk mengembangkan bisnis dan perusahaan anda.

Engineering is one thing that is very important in the process manufacturing industry, engineering extension is directly related to the strength and development of manufacturing processes in a company. Therefore engineering is part of the power of business to support the manufacturing process efficient and efficient. As one of the engineering company, PT. Surya Gemilang Engineering is a company whose mission is to provide added value to the manufacturing industry by providing support and engineering services.

We have been operating since 2001 providing optimal solutions and services to customers in the form of engineering services and unique products that support productivity in the manufacturing process.

So that, we are constantly working to improve the capabilities in terms of technology, human resource and management systems in order to always be an important part the manufacturing industry continues to grow and thrive.

We will continue to support the manufacturing industry to actively contribute to strategic partners to develop the business and your company.

Muhammad Hayim
President

Corporate History

2001

Mula didirikan dengan menyewa Workshop dan Fasilitas Mesin di Balai latihan kerja

2003

Pindah Menempati Office dan Workshop baru dengan menyewa di jalan Raya Kari No. 421 dengan Penambahan Fasilitas Mesin yang lebih memadai

2004

Penambahan Area Fabrikasi dan mesin CNC, memula pembuatan Mesin pengukiran Khusus Industry (Special Purpose Machine Maker)

2005

Mula Masuk dalam pengerjaan komponen Standar Industry (Original Equipment Manufacturing Part Maker) Otomotif, Musik, dan lainnya.

Penambahan area produksi untuk Fabrikasi dan Material Cutting

2006

- Pembukaan Kantor Perwakilan di Delta Mak - Cikarang
- Melakukan Pembelian lahan dan bangunan seluas 4.500 sqm di Jl Raya Kari No. 421
- Mula memasarkan Self Brand "Sugit" untuk Table Lifter untuk pasar lokal
- Melakukan Pembelian dan penambahan Machining Centre dan CNC Lathe

2012

Penambahan Area Assembling

2013

Penambahan Mesin CNC & Quality Manufacturing Equipment (CMM, Harding Tester, Roughness Tester dll)

2001

Starting was founded with renting workshop and engineering facilities at center job training

2003

Moved occupies on new office and workshop, with hired at Kari Street No. 421 with the addition of more adequate machinery

2004

Addition plant area and CNC Machines, start making our special machine industry (Special Purpose Machine Maker)

2005

Began to enter the construction industry standar components (Original Equipment Manufacturing Part Maker), otomotif, music, etc.

The addition of the production area for fabrication and material cutting

2006

- Opening the representative office at Delta Mak - Cikarang
- Purchasing the land and building area of 4500 sqm at Kari Street No. 421
- Begin marketing its own brand "Sugit" for other table lifter local market
- Purchasing and addition machining centre and CNC Lathe

2012

Addition of Assembling area.

2013

Addition of CNC Machine & Quality Manufacturing equipment (CMM, Harding Tester, Roughness Tester, etc.)

Map of Location

Menjadi terdepan dalam layanan engineering dan menghasilkan produk yang berorientasi pada QCDSE (Quality, Cost, Delivery, Safety, Environment) untuk memberikan kontribusi margin dan kepuasan pelanggan

Leading company in engineering services and make product with QCDSE (Quality, Cost, Delivery, Safety, Environment) oriented for giving to customer margin contribution and satisfaction.

 Mission

Memberikan Layanan dan membuat barang berkualitas sesuai dengan kebutuhan dan standar pelanggan

Provide Services and make quality goods in accordance with the requirements and standards of customer

 Competitive Advantage

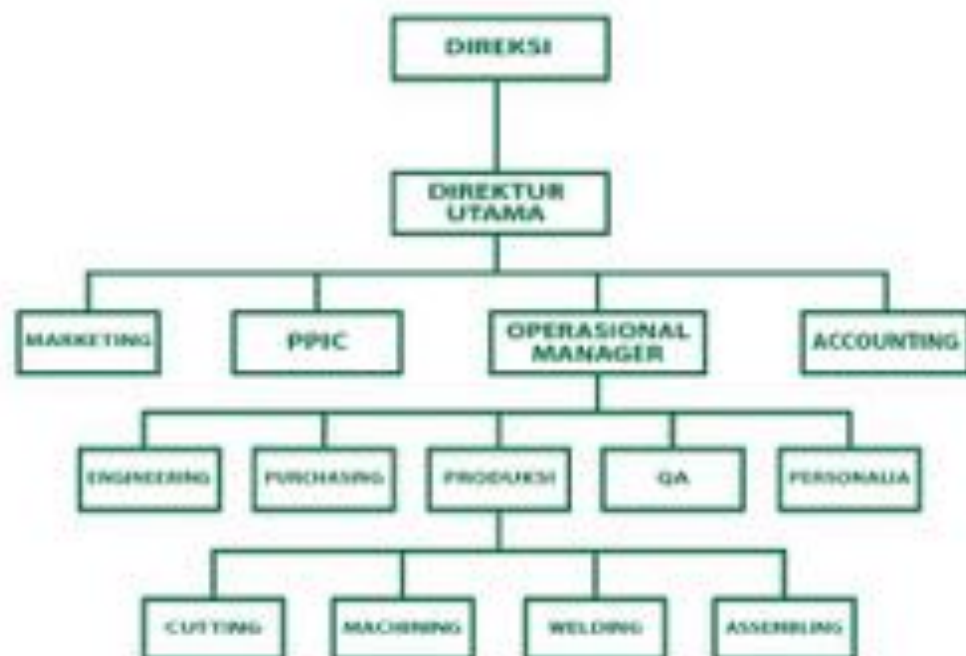

- **Lokasi Strategi**
Hanya 5 menit dari Pintu Tol Karawang Timur
- **Jaminan Mutu**
Kami menjamin semua produk yang benar-benar untuk memenuhi standart mutu
- **Harga Bersaing**
Berkomitmen untuk biaya yang Kompetitif
- **Menguntungkan Kedua belah Pihak**
Selalu berkomitmen untuk kepuasan konsumen
- **Saling Menguntungkan**
Kami selalu memberikan cara terbaik agar kedua belah pihak saling di untung

- **Strategic Location**
Only 5 Minutes from Karawang Timur Toll Gate
- **Quality Assurance**
We assure all product totally to meet standart quality
- **Competitive Budget**
Committed to reasonable cost
- **Mutual Satisfaction** - Always committed to customer satisfaction
- **Win win solution** - We Always take for best way to get win win solution
